

FELCO 810 - Power-assisted

Electric tool - Standard model with curved cutting head

Designed in Switzerland by FELCO

35mm/1.4in. 270mm/10.6in. 870g/30.7oz.

This model is recommended for cutting very hard wood or for large diameter branches. The new geometry of the blade and counter-blade offers incredible cutting strength.

Additionally, the ergonomics are perfect. Easy to handle, the tool relieves the strain on arm and shoulder muscles.

Its battery weighs less than two kilos. It has enough charge to handle a full day of pruning; it recharges in roughly five hours.

The storage bag may be worn on the belt or with a shoulder strap.

THE POINTS OF EXCELLENCE

Cutting head "1-35 mm"

Curved cutting head, designed for keeping the wood close to the central axis.

Micrometric adjustment

FELCO's micrometric adjustment system guarantees an optimal adjustment of the cutting head throughout the life of the tool. It ensures a clean and precise cut.

Forged aluminum body

Lightweight, strong and sturdy thanks to special aluminum alloys and advanced precision forging methods perfectly mastered by FELCO.

Li-Ion Battery

The (Li-Ion) battery has enough charge to handle a full day of pruning.
